

Proposal No: 20
Title: Opacity
PI: Caden Manson
Email: cmanson@andrew.cmu.edu

December 16, 2016

Dear Caden,

Thank you for submitting your proposal "Opacity" to the Berkman Faculty Development Fund.

Your proposal was well received by the review committee. As a result, we are pleased to offer you \$3,000 of Berkman Faculty Development Funds for your initiative. Please note that due to an overwhelming amount of budget requests, we are able to fund a reduced percentage of what you requested. Instructions on how to access your funds will be sent shortly after January 1, 2017.

The Berkman review committee commends your project. It is an interesting and forward thinking project. The committee recommends that the work be examined to determine the impact on the CMU student population.

As noted in the Berkman Faculty Development Guidelines, recipients are required to submit a summary report and documentation at the conclusion of the funding period for their projects. More information can be found at the ProSEED website (<http://www.cmu.edu/proseed/>).

Congratulations on your Berkman Faculty Development Fund award. We welcome your feedback and questions on the application process. Please direct questions/comments to proseed@andrew.cmu.edu.

Warm Regards,

Kathryn Roeder
Vice Provost for Faculty
Professor of Statistics & Computational Biology

On behalf of the Berkman Faculty Development Fund Committee
